

ADDING A LABEL

Do not forget to add a label. This step takes only a few minutes and is well worth the effort as it documents information about your quilt. The label can be elaborate or plain. You can buy a preprinted label or printable fabric sheets. The minimum required for the quilt show is the name of the quilt and your name.

Or you can provide more information such as: the name of the quilt, your name, the quilter's name (if applicable), and the place and date the quilt was completed.

In either case you can simply fold under the edges of the label and whipstitch it into place. The label will be covered during the judging of your quilt.
